19th International Science Conference

COMPUTER NETWORKS

Szczyrk, POLAND

June 19-23, 2012

PRELIMINARY INFORMATION

The conference is of international type. Conference languages: English, Polish. The main goal of the conference is presenting current researches and application activities as well as experience exchange connected with general issues involved in computer networks. The CN conference is dedicated to all activities related to computer networks. The conference is organized with association with IEEE Poland Section and iNEER.

TOPICS TO BE ADDRESSED (BUT ARE NOT LIMITED TO) INCLUDE

- New technologies related to the Computer Networks
- Fundamentals of computer networks architecture and programming
- Internet networks
- Data security in distributed systems
- Industrial computer networks
- Applications of computer networks
- Wireless systems and sensor networks
- The theory of queues and queuing networks
- Ambient, convergent networks and multi-networking
- Molecular networks
- Network issues related to nano and quantum technology

DEADLINES

- submission of full papers in English: till February 15, 2012
- submission of full papers in Polish: till March 14, 2012

SOLICITED PAPERS

Full papers, 8-10 pages, should describe results and original research work not submitted or published elsewhere in one of the main categories listed above. The papers should properly place the work within the field, cite related work and clearly indicate the innovative aspects of the work and the contribution to the field. Papers must be submitted via the conference web site in PDF form. Further information is available at the conference web site.

The papers are double-reviewed by members of the Program Committee.

All accepted papers will be published in the Conference Proceedings by Polish (Studia Informatica) and foreign (CCIS series of Springer) publishers.
